

Trade representative wanted!

Our successful middle-class Slovenian group of companies "Struc" is one of the biggest manufacturers of agricultural, constructing and gardening tools within Europe. The main focus of our sales program is put on building and gardening tools, such as forks, digging forks, shovels, spades, scythes, sickles, axes, pickaxes, rakes, hoes, scrapers and especially for the construction we can offer trowels and spatulas. The production of small single axe tractors with attachments for mowing, soil cultivation and snow plowing is another section of our wide product range.

We are already supplying a lot of European countries and we are producing tools and machines for several well-known companies.

In order to develop the market, we are now looking for a team oriented, determined, successful trade representative. Our future trade representative should be able to work independently and on commission basis.

To see our complete sales program please visit our website: www.struc.info
